

# Say Goodbye to Cellulite with Reaction™ by Viora

By Summer Moody, LE, Cosmetic Laser Skin Care

**A**s a modern woman, I've often asked myself, "If we can put a man on the moon why is there no great treatment for cellulite?!" Well finally, there is a new option in aesthetic technology that allows us to take years off your face and dimples off your thighs. "YES!" I proclaim, coupled with a sigh of relief. For so many years as an individual and Licensed Esthetician, I have been dealing with aging and cellulite issues for myself and those I provide for. It is always our goal here at Cosmetic Laser Skin Care to provide our clients with the best options available. So after hearing the buzz about this new machine, we decided to do some research and found what we had been looking for!

The Reaction™ by Viora is the newest addition to our family of procedures here at the spa. The Reaction™ is an innovative, gentle, and non-invasive device used to effectively tighten the skin on your face, neck, and whole body. It also has the capability of contouring or reducing fat and evening out that dreaded dimply cellulite texture. "Ding! Ding!" It can be used on all skin types and colors and requires no down time with an application that can be compared to a hot stone massage.

Reaction™ offers multiple treatment applications for the industry's most-wanted aesthetic treatments:

- Cellulite treatment
- Circumferential reduction
- Skin-tightening for aging & lax skin on the face and body
- Skin tightening treatment for appearance of stretch marks

Using CORE™ multi-radio frequency technology, heat, and vacuum massage therapy the reaction can smoothly contour the body or rejuvenate the delicate facial skin even around the eyes and neck area. Multiple treatments are needed to achieve the full results, and the number and price of the sessions vary. Here at Cosmetic Laser Skin Care we have been seeing this machine accomplish our version of "putting a man on the moon!"

- Visible results after the first treatment
- 15-25 minutes per treatment
- Shortest treatment course of 6-8 treatments
- No Pain, No Fuss, No Downtime

Cosmetic Laser Skin Care was established in 2002 as part of the vision of the Johnson City Eye Clinic. Our Doctors have a special interest in plastic surgery for upper and lower eyelids and offer full face laser resurfacing, plastic, cosmetic and reconstructive surgeries. In addition to the cosmetic surgeries and services including Botox Cosmetic, Restalyn and Juvederm, Cosmetic Laser Skin Care offers a large variety of Day Spa Services. We invite you visit the Skin Care Center to determine how you may benefit from the area's largest selection of safe, effective and affordable skin care treatments and cosmetic surgery applications.
